

## Accountability Report General Information

### Charter School Application - General Information

Each year, the governing body of every charter school in Florida must report on its progress to its sponsoring school district, pursuant to Section 1002.33 (9)(k), Florida Statutes. Each district must then forward these annual accountability reports to the Florida Commissioner of Education. The information below constitutes that report.

Various sections of this accountability report include the demographic information, student performance data, and financial accountability information required by law, but there also are sections that feature pertinent information on management companies, instructional staffing, school mission, and governance, among others.

This report has multiple purposes. Among them: to provide the general public critical information on the public charter schools in their communities, to provide sponsoring districts information on the schools in their portfolio, and to provide all constituents of public schooling the data necessary to examine this growing sector of education. Most importantly, however, the primary purpose of the annual accountability report is to help the district sponsor determine whether the charter school is meeting the terms of its charter and meeting or exceeding the student academic achievement requirements and goals agreed to in the charter contract. According to the Florida Standard Charter Contract, which must serve as the base of negotiations for all charter agreements in the State of Florida, "The sponsor shall annually evaluate the School on its performance and progress toward meeting the standards and targets included in this contract, including academic achievement goals. If the term of this contract exceeds five years, the Sponsor shall conduct a High-Stakes Review at least every five years and shall present the findings of the review to the governing board of the School."

This purpose also is aligned with the Florida Principles & Standards for Quality Charter School Authorizing, drafted by the Department in collaboration with national experts and authorizers across Florida. The Principles & Standards provides that charter sponsors "grant initial charter contracts for a term of five years or longer only with periodic high-stakes reviews every five years or more frequently ..."

### Mission Statement

## Partnership, Specialty Area & Management

### Partnerships (Entity participating in creation and operation of the charter school)

If the charter school is operated by a university, community/state college, municipality or charter-school-in-the-workplace, select that organization from the list below or select none.

#### University

A state university may grant a charter to a lab school created under s. 1002.32 and shall be considered to be the school's sponsor. Such school shall be considered a charter lab school (Section 1002.33(2), Florida Statutes).

University:

#### Community/State College

A Florida College System institution who worked with the school district or school districts in its designated service area to develop charter schools that offer secondary education. These charter schools must include an option for students to receive an associate degree upon high school graduation. (Section 1002.33(5)(4), Florida Statutes).

Community/State College:

#### Municipality

A charter school-in-a-municipality designation may be granted to a municipality that possesses a charter; enrolls students based upon a random lottery that involves all of the children of the residents of that municipality who are seeking enrollment. (Section 1002.33(15)(c), Florida Statutes).

Municipality:

#### Workplace:

A charter school-in-the-workplace may be established when a business partner provides the school facility to be used; enrolls students based upon a random lottery that involves all of the children of employees of that business or corporation who are seeking enrollment. (Section 1002.33(15)(b), Florida Statutes).

### Governing Board Information

Governing Board Name: COAST Charter School Board

Governing Board FEIN: 59357470

Parent Liaison Name: Mickey Cantner

Pursuant to Section 1002.33 (7)(d)(1), Florida Statutes, each charter school's governing board must appoint a representative to facilitate parental involvement, provide access to information, assist parents and others with questions and concerns, and resolve disputes. The representative must reside in the school district in which the charter school is located and may be a governing board member, charter school employee, or individual contracted to represent the governing board. If the governing board oversees multiple charter schools in the same school district, the governing board must appoint a separate individual representative for each charter school in the district. The representative's contact information must be provided annually in writing to parents and posted prominently on the charter school's website if a website is maintained by the school. The sponsor may not require that governing board members reside in the school district in which the charter school is located if the charter school complies with this paragraph.
